SUMMARY

Aspiring Full Stack Developer with hands-on experience in front-end and back-end development using HTML, CSS, JavaScript, React.js, Java, SQL, and modern web technologies. Skilled in developing responsive web applications, debugging code, and collaborating in team environments. Strong analytical thinking, quick learning ability, and a positive mindset enable effective problem-solving and continuous improvement. Seeking an opportunity to apply technical skills and contribute to innovative software development projects.

TECHNICAL SKILLS

Languages: Java,python,JavaScript

Frontend: HTML, CSS, JavaScript, Responsive Design, UI/UX Principles

Backend: REST API Development, CRUD Operations, Basic Server-Side Logic

Database: SQL, MySQL, Database Design, Query Optimization

Tools & Platforms: Git, GitHub, VS Code

Concepts: Full Stack Development, OOP, Web Application Architecture

CERTIFICATIONS

- **Artificial Intelligence and Data Science Certification** — *Pacelab, Calicut* — 2025
- **Full Stack Web Development Certification** — *Internzvalley, Bangalore* — 2026

PROJECTS

Task Tracker — Full Stack Web Application *HTML · CSS · JS · SQL*

- Developed a responsive task management application using HTML, CSS, JavaScript, and SQL.
- Implemented user authentication and CRUD operations for efficient task creation, editing, and deletion.
- Designed normalized database schema to manage user tasks, priorities, and deadlines.
- Applied responsive design principles ensuring cross-device compatibility.

Counselyt — Legal Information Management Platform *HTML · CSS · JS · MySQL*

- Built a full stack platform to streamline legal research and document access for users.
- Structured legal case records and statutes using relational database systems for fast retrieval.
- Optimized search functionality to improve information retrieval efficiency significantly.
- Implemented clean frontend UI for seamless navigation across legal categories.

Agrigenic — AI-Based Agricultural Marketplace *Python · ML · Web*

- Designed and developed an AI-powered marketplace connecting farmers and customers directly.
- Integrated machine learning models for crop validation and fair price prediction based on trends.
- Enhanced platform transparency and data trust between buyers and sellers.

INTERNSHIPS & TRAINING

Full Stack Development Intern | Internzvalley, Bangalore 2026

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Worked on frontend and backend development tasks, integrating UI with server logic.
- Collaborated in real-time projects improving problem-solving and teamwork capabilities.

Artificial Intelligence and Data Science Intern | Pacelab, Calicut 2025

- Learned Python programming and applied it to hands-on development projects.
- Gained practical exposure to building data-driven web solutions.
- Worked on integration of backend logic with frontend interfaces.

EDUCATION

B.Tech — Artificial Intelligence and Data Science | *Dr. NGP Institute of Technology, Coimbatore* | *CGPA: 7.1 (up to 5th Semester)* | *Expected 2027*

HSC (Class 12) | *G.G.S.M Matric Higher Secondary School, Mayiladuthurai* | *Score: 85%* | *2023*

SOFT SKILLS

Problem Solving | Analytical Thinking | Strategic Planning | Adaptability | Team Collaboration
